PROFILE

Passionate front-end developer who is good at making user interfaces that pull you in and experiences that are super smooth. I excel at creating user-friendly interfaces and turning ideas into digital solutions. I bring a strong sense of responsibility and dedication to every project, ensuring a valuable contribution to the team.

WORK EXPERIENCE

Tafsol Technologies
March 2023- Current

React Developer

- Developed various projects using Next.js and React, ensuring seamless user experiences and interfaces.
  - *Outcome:* Increased user engagement through improved UI/UX designs.
- Implemented Redux Toolkit Query for efficient state management and data fetching processes.
  - *Outcome:* Reduced data fetching time especially in user admin panels, enhancing application performance.
- Designed and developed listing forms, optimizing data input and retrieval processes for streamlined user interactions.
  - *Outcome:* Improved form submission efficiency and validations.

PERSONAL PROJECTS

Personal Portfolio

Created a website using HTML, CSS and JavaScript to showcase information about myself
- *Outcome:* Effectively displayed personal information and projects in a user-friendly manner.

Instagram Clone

Clone of Instagram's homepage built using React and Sass.
- *Outcome:* Successfully utilized an npm package of React stories to display visual narratives featuring selective individuals from my social circle.

Coffee Place

A Front-end of a coffee site using HTML, CSS and Javascript.
- *Outcome:* Developed responsive web designs and implemented E-commerce Cart Functionality.

Food Camp

A Dynamic React application using fetch API along with some React Hooks.
- *Outcome:* Improved data fetching and query handling.
